

This is a general overview of the dental plan and may vary slightly from state to state. Please contact Real Dental Insurance to obtain the summary of benefits specific to your state

SCHEDULE OF BENEFITS

Self-Referral Dental Plan

NA245D

This Schedule of Benefits lists the services available to you under your plan, as well as the co-payments associated with each procedure. There are other factors that impact how your plan works and those are included here in the Exclusions & Limitations; please review them before your first dental appointment. It is important to discuss all recommended procedures with your provider prior to treatment.

The following co-payments apply only when services are performed by your selected general dentist. If you choose to receive services from a contracted dentist whose practice is limited to specialty care (periodontics, oral surgery, endodontics, pedodontics, orthodontics), your co-payment will be 75% of that dentist's usual fee for those services. A list of these contracted dentists may be found through online directory at

In addition, non-listed services are available with your selected general dentist or specialty care dentist at 75% of their usual and customary fees.

Missed Appointments: If you need to cancel or reschedule an appointment, you should notify the dental office as far in advance as possible. This will allow the dental office to accommodate another person in need of attention.

Dental Terminology Definitions

These definitions are designed to give you a “layman’s understanding” of some dental terminology in order for you to better understand your plan; they are not full descriptions.

Amalgam:	A silver filling
Anterior:	Teeth that are in the front of the mouth
Bicuspid:	Most people have eight bicuspid teeth; they are located immediately preceding the molar teeth with two in each quadrant of the mouth.
Bridge:	A replacement for one or more missing teeth that is permanently attached to the teeth adjacent to the empty space(s).
Crown:	A covering created to place over a tooth to strengthen and/or replace tooth structure. A crown can be made of different materials (noble, high noble), base metal, porcelain or porcelain and metal.
Endodontics:	Procedures that treat the nerve or the pulp of the tooth due to injury or infection.
Oral Surgery:	Surgery to remove teeth, reshape portions of the bone in the mouth, or biopsy suspect areas of the mouth.
Orthodontics:	Braces and other procedures to straighten the teeth.
Periodontics:	Procedures related to treatment of the supporting structures of the teeth (gums, underlying bone).
Posterior:	Teeth that set towards the back of the mouth, including molars and bicuspid (premolars).
Primary Teeth:	The first set of teeth (“baby” teeth).
Prophylaxis:	Scaling and polishing of teeth by removal of the plaque above the gum line.
Prosthodontics:	The restoration of natural and/or the replacement of missing teeth with artificial substitutes.
Quadrant:	One of the four equal sections into which your mouth can be divided (some procedures like periodontics are done in quadrants).
Resin-based Composite:	Tooth-colored (white) fillings.
